

Assessment of Activities of Daily Living (ADLs) Measures:

Whether the person can accomplish each activity independently, whether they need partial supervision or assistance and whether they are fully dependent on others.

- Personal self-care, (feeding oneself, bathing, using restroom, dressing, etc.).
- Mobility: ability to move from a bed to a standing position or to a chair (transfer), able to walk (with or without assisted devices) or use a wheelchair.

Assessment of Instrumental Activities of Daily Living (IADLs)

Assess whether the person can accomplish each activity necessary to manage their living environment independently or whether they are dependent on others.

- Shopping for groceries, housekeeping, cooking, etc.

Why Choose Us?

- Because we have proactive experienced staff dedicated to client advocacy.
- Because we add a personal touch to personalized services.
- Because we will aggressively negotiate for our customers.

Our commitment is to deliver effective and consistent case management. We will utilize every available resource to provide customers with a solid range of service options and costs. We guarantee to accommodate each customer's individual needs.

Management
Consultants, Inc.

OVERVIEW

DIVERSIFIED HEALTH CARE MANAGEMENT CONSULTANTS, INC. has developed a unique, effective, and most cost effective approach - both medically and vocationally to manage catastrophic injuries related to auto, workers' compensation and/or long term disability.

The support teams of DHCMC are active, educated and experienced health care professionals in this diverse medical field. We have combined our flexible and innovative approach to meet the needs of our customers.

DHCMC focuses on identifying, clarifying and addressing the services needed to meet any injury.

Each member of our healthcare team are continuously monitored, guided and advised by our Program Director. Our team members are carefully screened and selected. All of our team members have:

- Educational credentials and/or background
- Up-to-date licenses
- Experience and/or orientation
- Desire and dedication to see goals met

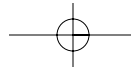

WHAT ARE OUR GOALS?

Our goal is to assist the individual in achieving their desired and/or highest attainable level of health and personal independence through the provision of effective case management.

We want to :

- Maximize and improve medical care in a cost effective and timely manner.
- Early intervention of identifying potential problems and containment measures to minimize loss.
- Provide reports in a timely manner to account with you and your doctor(s).
